TRAINING & HEALING FOR THE BODY OF CHRIST!

This week offers intensive healing through a significant portion of the Living Waters course. It's a structured week of worship, teaching, and ministry in both large and small group settings. We overlook Collaroy Beach and peninsular, a restful place for healing and restoration. Trained, anointed leaders, focus on healing prayer. The week offers Healing and leadership training for those desiring to join a LW leadership team, or to start a pilot group in your church. An opportunity for interested people to discover the value Living Waters and its associated courses. An opportunity for people in need of healing of their emotions, relationships or sexuality. Or come simply for a break, without partaking in the course.

WHAT IS LIVING WATERS?

Living Waters is an in-depth healing, teaching and discipleship series developed by Andy Comiskey of Desert Stream Ministries, USA. It ministers healing to those struggling with any area of sexual and relational brokenness, such as sexual abuse, addiction, co-dependency, fear of intimacy, divorce recovery, homosexuality etc. The purpose of training is to deepen the healing of leaders and to train those eligible to use the programme within their own church or ministry.

THE SPEAKERS

Ron & Ruth Brookman, gifted team leaders from around the nation & an international LW speaker tbc.

WHAT IS REQUIRED?

- The week is available to anyone open to the Lord to receive healing, and who can be transparent and respectful of others in a small group.
- We aim to train prospective leaders from healing ministries, existing Living Waters groups, and in church leadership.

Priority will be given to teams of two or more, of each gender, who have the intention of serving together. Participants will be involved throughout the week in a small group to receive personal support and healing prayer. Living Waters is **NOT** a passive programme. **All participants need to be willing for God to open up areas of their life that need healing.**
